Assg 1 – Conventional Machine Tools

MDP 494: Advanced Manufacturing Technology and Prototyping

Instructor Name: Prof. Samy J. Ebeid & Dr. Moustafa M. Sayed

1/1

Name of Student:

Date:

ID:

It is required to prepare a study on **Conventional Machine Tools**. The study should include three of the following topics:

- Lathe machines
- Drilling machines
- Milling machines
- Boring machines
- Broaching machines
- Shaping and slotting machines

Prepare a report of around 10-15 A4 pages including brief explanations about each machine and its main operations. Give applications for components machined by the three cases that you have chosen.

Drawings and sketches are essential and very important in your report.
