

Spring 2026

Lab 1 – Conventional & CNC Machines

MDP 494: Advanced Manufacturing Technology and Prototyping

Instructor Name: Prof. Samy J. Ebeid & Dr. Moustafa M. Sayed

1/5

Name of Student:

Date:

ID:

During the lab time and while you are in the faculty workshops, select *four* manufacturing machine tools: *two* conventional and *two* CNC, if available.

Requirements for each machine tool:

1. Identify the name.
2. List the specifications.
3. Add the main dimensions.
4. State the operations that could be done.
5. Present a simple Free Hand sketch with supplementary photos.

Please print the sheet and take it with you during the lab period and fill the empty cells.
